Lead Data Analyst | Senior BI Analyst | Power BI | SQL | ETL | Reporting Automation

PROFESSIONAL SUMMARY

Senior Business Intelligence and Data Analyst with 11+ years of experience delivering data-driven insights across healthcare, financial, and logistics domains. Strong expertise in Power BI, SQL, and data modelling, with a track record of designing dashboards, optimising reporting workflows, and improving business decision-making. Experienced in building KPI-driven dashboards, integrating data from multiple systems, and ensuring data accuracy through structured ETL processes. Skilled in translating business requirements into scalable reporting solutions and delivering actionable insights to stakeholders in fast-paced environments.

KEY ACHIEVEMENTS

- Delivered 60+ dashboards and reports across Power BI, SSRS, and Excel, improving visibility of business KPIs and operational metrics
- Automated 10+ recurring reporting processes, reducing manual effort by 40% and saving 12+ hours per month
- Reduced data retrieval and reporting time by 30% through optimisation of SQL queries and integration of multiple data sources across systems
- Improved data processing efficiency by 20% by enhancing ETL workflows and reporting logic
- Consolidated data from 3+ systems into centralised reporting structures, improving data consistency and accessibility
- Supported global operations across 40+ airports in 6 regions, ensuring high system availability and reliable reporting outputs

PROFESSIONAL EXPERIENCE

ITECHBEES DIGITAL SOLUTIONS
LEAD DATA ANALYST
SENIOR ANALYST

HYDERABAD
April 2024 – Current
June 2022 – March 2024

- Developed and maintained 20+ Power BI dashboards for operations and KPI tracking, improving decision-making time by 20% across teams
- Integrated data from 3+ systems (Oracle ERP, SQL Server, business sources) to build unified reporting datasets, improving consistency and reducing retrieval time by 30%
- Optimised complex SQL queries and supported ETL workflows, improving data processing efficiency by 20%
- Automated 10+ recurring reports, reducing manual effort by 40% and saving 12+ hours/month
- Designed reusable datasets and KPI frameworks to enable standardised reporting across business teams
- Delivered insights and ad-hoc analysis for senior stakeholders, supporting operational planning and performance tracking
- Used Python (pandas) for data preparation and transformation to support reporting and analysis
- Performed data validation and reconciliation to ensure accuracy and reliability of reporting outputs
- Mentored junior analysts and supported delivery activities within the reporting team

MPHASIS PVT LTD
DELIVERY MODULE LEAD

CHENNAI
April 2021 - May 2022

- Developed and maintained 10+ Power BI dashboards to track system performance, incidents, and operational KPIs for business and operations teams
- Provided production support for a global airport operations system used across 40+ airports in 6 regions, maintaining 99%+ system availability and ensuring timely issue resolution within SLA timelines
- Analysed application and database data using SQL to troubleshoot 50+ production issues/month, improving resolution time and system reliability
- Built and enhanced SQL-based data extraction and reporting logic, improving data visibility supporting operational monitoring activities
- Contributed to backend enhancements using Python and SQL, supporting feature updates and improving system performance

- Collaborated with stakeholders to define reporting requirements and improve KPI visibility across regions
- Participated in Agile delivery (sprint planning, sprint retrospectives, story estimation), contributing to prioritisation and timely sprint execution
- Coordinated with cross-functional teams to resolve issues and deliver enhancements within defined timelines
- Supported junior team members and contributed to task allocation and delivery tracking within the module

GROWSERVE E-SOLUTIONS PVT LTD
SENIOR DATA ANALYST
DATA ANALYST

CHENNAI
September 2019 – March 2021
April 2015 - August 2019

- Automated 10+ recurring Excel and SQL-based reports, reducing reporting time by 40% and saving 12+ hours/month
- Developed and maintained 15+ dashboards and reporting solutions to track sales, operations, and business KPIs
- Analysed datasets with 100K–500K records, identifying trends and supporting data-driven decision-making
- Integrated data from 3+ source systems into centralised reporting datasets, improving data consistency and accessibility
- Performed data extraction, cleansing, validation, and reconciliation to ensure accuracy and reliability of reporting outputs
- Designed Excel-based reporting tools using Pivot Tables, VLOOKUP, and Power Query, improving reporting efficiency
- Supported business teams with ad-hoc analysis and insights, enabling better operational and planning decisions
- Collaborated with stakeholders to refine reporting requirements and improve KPI tracking frameworks
- Contributed to process improvements that enhanced reporting turnaround time and reduced manual dependency

ACCENTURE PVT LTD
ASSOCIATE SOFTWARE ENGINEER

BANGALORE
November 2013 - March 2015

- Supported SharePoint 2010 to 2013 migration using DocAve, executing list-by-list migration across UAT and production environments over a 6-month schedule
- Performed data validation using Excel (Pivot Tables, VLOOKUP) to ensure migration accuracy and data consistency
- Generated migration and validation reports using Excel and scripting support, improving tracking and auditability
- Assisted in scheduling and monitoring migration batches, ensuring smooth transition from UAT to production
- Provided L1, L2, L3 production support, resolving access issues, functional defects, and change requests within SLA timelines consistently
- Analysed system and data issues to identify root causes and support resolution across application and database layers
- Supported application enhancements and fixes using backend technologies including C# based on business requirements
- Collaborated with cross-functional teams to ensure system stability and smooth post-migration operations

SKILLS

- **Business Intelligence and Visualisation:** Power BI (DAX, Power Query), SSRS, Tableau, Excel (Advanced: Pivot Tables, VLOOKUP, Power Query)
- **SQL and Databases:** SQL Server, Advanced SQL (Joins, Window Functions, Subqueries), Stored Procedures, Query Optimisation, Indexing
- **Data Engineering and Modelling:** ETL Pipelines (SSIS), Data Transformation, Star Schema, Data Modelling
- **Programming (Working Knowledge):** Python (pandas, data analysis, basic automation)
- **Tools and Platforms:** Excel, SSIS, Git, Jira, Version1, Oracle ERP
- **Concepts and Techniques:** KPI Reporting, MIS Reporting, Data Validation, Data Cleansing, Data Reconciliation
- **Methodologies:** Agile, Scrum, Waterfall

EDUCATION

Bachelor of Technology | Kumaraguru College of Technology | Coimbatore

2009-2013
